

# Certified Professional in Erosion and Sediment Control

## What is CPESC?

The Certified Professional in Erosion and Sediment Control is a designation that provides evidence of qualifications in the fields of erosion and sediment control. CPESC certification is available to those who have the educational training, as well as the demonstrated expertise and experience in site planning and management, erosion prediction, runoff management, soil stabilization, erosion control, and sediment control.

### CPESC Certification Benefits

- ✧ *Enhances your technical and professional credibility*
- ✧ *Satisfies the qualified-person requirement for local and state programs*
- ✧ *Demonstrates proficiency in the erosion and sediment control field*
- ✧ *Increases personal value, recognition, and marketability*
- ✧ *Satisfies underlying QSD/QSP credential requirement*

### CPESC Process

Apply to take the Certified Professional in Erosion and Sediment Control (CPESC) Exam through Envirocert International and register for the full-day CPESC Review course and Exam, or participate in the review session and take the exam at a later date. You can also sign up to take the exam only, if the course was previously taken.

**PLEASE NOTE: To take the CPESC certification exam, you must have received a letter of approval from CPESC, Inc. Additional information and required forms are available at [www.cpesc.org](http://www.cpesc.org)**

All participants must bring their own CPESC Exam Review Course Workbook, and should review the workbook prior to attending the Exam Review Session.

For more information regarding our classes, please go to <http://brashind.com/construction-training/>
